Thanks Emmanuelle. Hope all is well in San Francisco.
Dan

Subject: upcoming Polacca survey

Hi Dan,

I just saw the schedule that you will be surveying Polacca in a couple of weeks. It's unlikely I'll be able to make it out there.

I'm not aware of any pressing compliance issues. They do have two infrastructure projects that IHS is working on. One is to replace the west tank and the other is the HAMP. Both are still a ways off from construction. Hopefully IHS can attend the survey and provide an update on those projects and any connection issues with the new tank locations.

Jeffery has been filling in for me with the Hopi water systems while I've been acting. I checked in with him and I don't think he's aware of any compliance issues (other than arsenic) either but can reply to this if something comes up.

Thanks,

Emmanuelle
